September 22, 2014

I have frequently locumed at the Medical Clinic Associates over the last seven years. This large clinic has an extremely helpful and friendly staff.

The remuneration package offered at the clinic is very competitive and I have always been paid promptly.

This is a large clinic which has a well appointed treatment room that makes it possible to perform small procedures such as removal of skin cancers and other lumps and bumps without having to travel to the hospital.

Dr. William H. Barclay, MD
